

Support Curriculum Review with Atlas Reports

ASSESSMENT METHODS

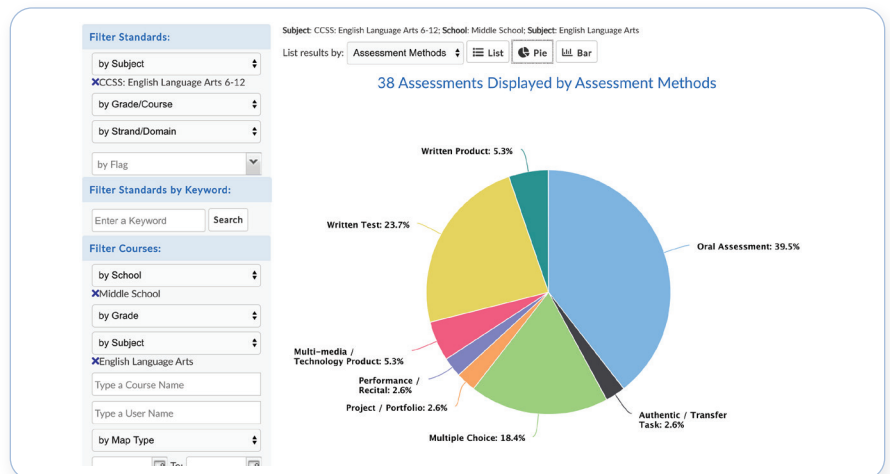

Teachers

Assessments filtered to your needs. Filter by specific grade level and subject. Gain insight into the different types of assessments that are being documented in the curriculum.

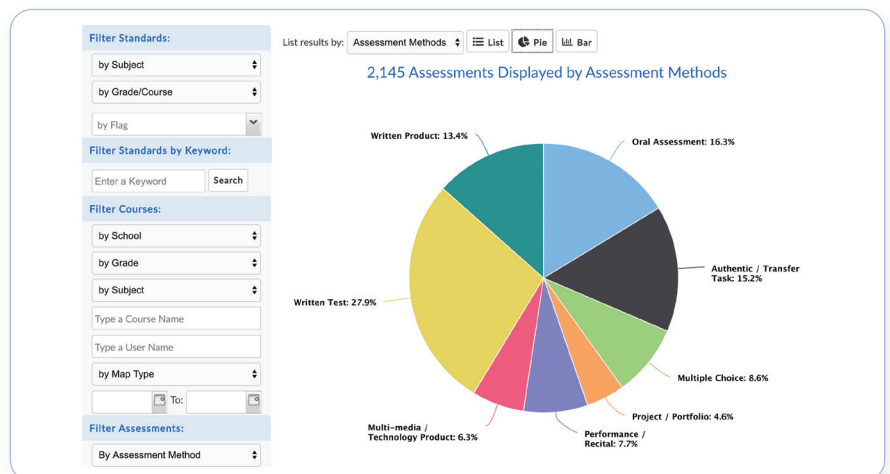

Curriculum Leaders

Review how assessment methods are aligned to specific standards. Support conversations on the assessments used to show student learning and mastery of standards.

Administrators

View the entire school's assessment methods. Get a bird's eye view and then work to break it down by grade and subject. See the diversity of assessments and help create consistency across the school.

SCOPE & SEQUENCE

Teachers

Side-by-side comparison of a selected mapping category across courses or grades. See how a specific content is scaffolded from one year to the next. Use it to look at vertical or horizontal alignment.

COMPARATIVE UNIT CALENDAR

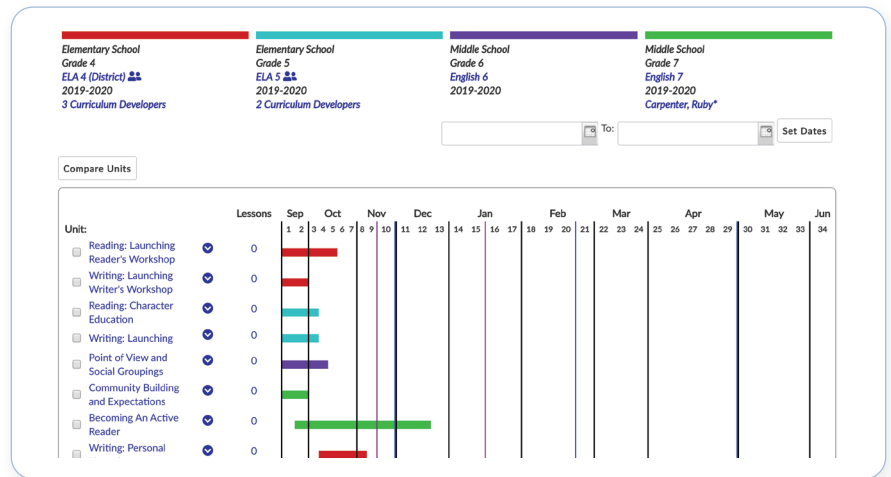

Teachers

View multiple courses in one view. Explore timing of units and flow of learning. Examine how one course builds to the next course. Identify opportunities for collaboration and connections.

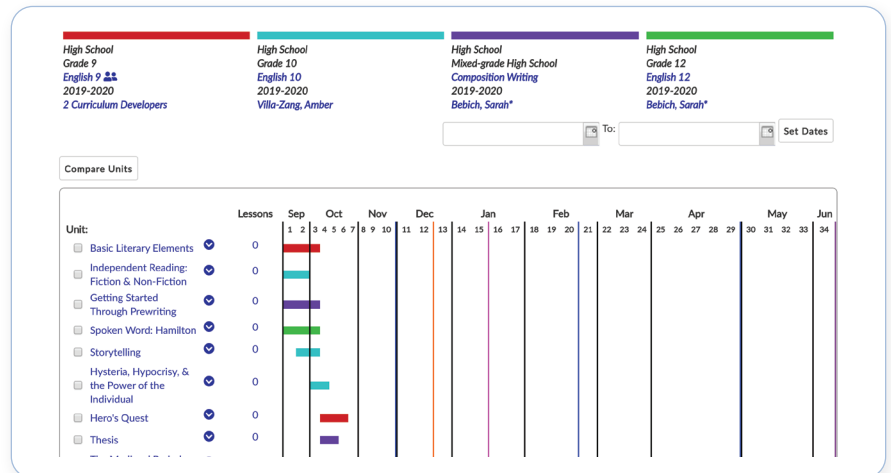

Curriculum Leaders

Examine the progression of selected courses throughout the year. Use this report to show transition years and what is taught from one course to the next. Spotlights opportunities for interdisciplinary connections.

Admin

View how courses are progressing in their units. Use this report during a pre-observation meeting to get a wholistic picture of what is occurring. View the courses in a particular grade level to see the learning progression.

STANDARDS ANALYSIS

Teachers

View the percentage of standards targeted in units and assessments. Zoom in on individual courses to review missing standards and to adjust units and assessments accordingly.
